Annual Financial Report Fiscal Year 2009

Comprehensive Annual Financial Report for the Fiscal Year Ended September 30, 2009 of the Jacksonville Aviation Authority Jacksonville, Florida

(A Component Unit of the City of Jacksonville, Florida)

December 31, 2009

To the Board of Directors of the Jacksonville Aviation Authority:

We present the Annual Financial Report of the Jacksonville Aviation Authority (the Authority) for the fiscal year ended September 30, 2009. The Finance Department prepared this report. Responsibility for both the accuracy of the presented data and completeness and fairness of the presentation, including all disclosures, rests with the Authority. To the best of our knowledge and belief, this report fairly presents and fully discloses the Authority's financial position, results of operations, and cash flows in accordance with accounting principles generally accepted in the United States of America.

This annual financial report consists of the following items:

- This Transmittal Letter, which includes a narrative of the Authority's history and background.
- The Report of Independent Certified Public Accountants.
- Management's Discussion and Analysis (MD&A) of the financial condition of the Authority.
- The Authority's Financial Statements (Balance Sheets, Statements of Revenues, Expenses, and Changes in Net Assets and Statements of Cash Flows) and Notes to the Financial Statements
- The Statistical Section includes selected financial and operational information, generally presented on a multi-year basis.

Reporting Entity and Its Services

The Authority, a public body corporate and politic, was established by the State of Florida on June 5, 2001, to own and operate aviation facilities in Duval County, Florida.

A seven member Board of Directors presently governs the Authority. The Board of Directors establishes Authority policy and appoints an Executive Director to implement it. The Board of Directors annually elects a Chairman, Vice-Chairman, Secretary and Treasurer. Directors serve a four year term. Directors may serve a maximum of two successive terms. Directors serve as volunteers and do not receive a salary or other

compensation for their services. The Board of Directors appoints an Executive Director who serves at its pleasure.

Steven Grossman, Executive Director/CEO of the Authority, plans and directs all the programs and activities of the Authority, focusing on the future and the development of long-term business strategies.

The Authority airport system consists of Jacksonville International Airport, Craig Airport, Herlong Airport and Cecil Field.

The Authority is considered a component unit of the City of Jacksonville, Florida under the criteria set forth by the Governmental Accounting Standards Board Statement No. 14, *The Financial Reporting Entity*. The Authority does not have any component units and is not involved in any joint ventures.

#### Economic Condition and Outlook

Situated in the corner of Northeast Florida, Jacksonville is considered to be the metropolitan market for over ten Florida and South Georgia counties. The City of Jacksonville is the hub of an array of services that include an international airport and three general aviation airports, a deep-water port, travel and tourism, recreational and sports activities, medical and health, higher education and cultural amenities. With a Metropolitan Statistical Area (MSA) population of over one million, Jacksonville is on the verge of being classified as a first-tier city. The Jacksonville MSA consists of Baker, Clay, Duval, Nassau, Putnam, and St. Johns Counties.

The strength in Jacksonville's economy lies in its uniquely diversified structure, not heavily dependent on any one major employer or employment sector. The community enjoys a natural location for distribution and warehousing activities. Quality lifestyle, labor force, and cultural/educational/medical facilities are considered key resources in the market's ability to sustain future growth.

#### Accounting Systems

The management of the Authority is responsible for establishing and maintaining internal control that is designed to ensure that the assets of the Authority are safeguarded. In addition, as a recipient of federal financial assistance, the Authority is responsible for ensuring that adequate internal control is in place to ensure compliance with laws and regulations related to the Airport Improvement Program (AIP) and the Aviation Safety and Capacity Expansion Act.

The objectives of internal control are to provide management with reasonable assurance that the resources are safeguarded against waste, loss and misuse, and reliable data are recorded, maintained and fairly disclosed in reports. The current internal controls provide the Authority with a solid base of reliable financial records from which financial statements are prepared. These accounting controls ensure that accounting data are

reliable and available to facilitate the preparation of financial statements on a timely basis. Inherent limitations should be recognized in considering the potential effectiveness of any system of internal control. The concept of reasonable assurance is based on the recognition that the cost of a system of internal control should not exceed the benefits derived and that the evaluation of those factors requires estimates and judgment by management.

The Authority's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual basis of accounting. The Authority is a local government proprietary fund, and therefore the activities are reported in conformity with governmental accounting and financial reporting principles issued by the Governmental Accounting Standards Board (GASB).

#### **Budgetary Control**

The Authority's annual budget is a financial planning tool outlining the estimated revenues and expenses for the Authority. Prior to July 1 of each year, the Authority prepares and submits its budget to the City Council of the City of Jacksonville for the ensuing fiscal year. Budgetary control and evaluation are affected by comparing actual interim and annual results with budget. The Authority conducts periodic reviews to ensure compliance with the provisions of the annual operating budget approved by the Board of Directors and the City Council of the City of Jacksonville. Certain assumptions are made in determining the annual budget and accordingly subsequent results could differ substantially from those projected. In keeping with the requirements of a proprietary fund, budgetary comparisons have not been included in the financial section of this report; however, a narrative on the budget is included in the Notes to the Financial Statements.

#### Independent Audit

A firm of independent certified public accountants is retained each year to conduct an audit of the financial statements of the Authority in accordance with auditing standards generally accepted in the United States and to meet the requirements of the Federal Single Audit Act of 1984, as amended. The Authority selected the firm of Ernst & Young LLP to perform these services. Their opinion is presented with this report. The reports required under the Single Audit Act are presented under separate cover. Each year, the independent certified public accountants meet with the Audit and Finance Committee of the Board of Directors to review the results of the audit.

#### Acknowledgements

The publication of this annual financial report is the culmination of a year of hard work by the Authority's Finance Department. I appreciate the commitment, effort, and perseverance of the Finance Department staff in the preparation of this report and for our annual accomplishments.

I also thank the Executive Director, Senior Management, and the Board of Directors for their leadership and support in planning and conducting the financial operations of the Authority in a responsible and progressive manner.

Respectfully submitted,

Richard A Rossi

#### Report of Independent Certified Public Accountants

The Board of Directors of Jacksonville Aviation Authority

We have audited the accompanying balance sheets of Jacksonville Aviation Authority (the Authority), a component unit of the City of Jacksonville, Florida, as of September 30, 2009 and 2008 and the related statements of revenues, expenses and changes in net assets and cash flows for the years then ended. These financial statements are the responsibility of the Authority's management. Our responsibility is to express opinions on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Authority's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Jacksonville Aviation Authority, as of September 30, 2009 and 2008 and the changes in its financial position and cash flows for the years ended in conformity with accounting principles generally accepted in the United States.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 18, 2009 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The management's discussion and analysis and the Schedule of Funding Progress, as listed in the table of contents, are not required parts of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the Authority's basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Ernst + Young LLP

December 18, 2009

#### Management's Discussion and Analysis

September 30, 2009 and 2008

#### Introduction

The following discussion and analysis of the financial performance and activity of the Jacksonville Aviation Authority (the Authority) is meant to provide an introduction to and understanding of the Authority's basic financial statements for fiscal years ended September 30, 2009 and 2008. The discussion has been prepared by management and is unaudited and should be read in conjunction with the financial statements and associated notes thereto, which follow this section.

The Authority is a body corporate and politic, established by the state of Florida on June 5, 2001, pursuant to the provisions of Chapter 2001-319 of the Laws of Florida, to own and operate aviation facilities in Duval County, Florida. Prior to October 1, 2001, the Authority operated as a division of the Jacksonville Port Authority. Pursuant to the provisions of Chapter 2005-328 of the Laws of Florida, the Authority changed its name from Jacksonville Airport Authority to Jacksonville Aviation Authority effective June 10, 2005.

The Authority consists of a seven member board, four members appointed by the Governor of the State of Florida and confirmed by the State Senate and three members appointed by the Mayor of the City of Jacksonville and confirmed by the City Council of the City of Jacksonville.

The Authority operates an airport system that consists of four airports: Jacksonville International Airport (JIA), Craig Airport, Herlong Airport and Cecil Field. The organization consists of approximately 215 full-time employees in a structure that includes administration, airport management and operations, and police.

The Authority is self-supporting, using aircraft landing fees, fees from terminal and other rentals, and revenues from concessions to fund operating expenses. The Authority is not taxpayer-funded. The capital construction program is funded by bonds issued by the Authority, federal and state grants, passenger facility charges (PFCs) and Authority revenues.

The Authority is a component unit within the City of Jacksonville, Florida's (the City's) basic financial statements based on the City's approval of the Authority's budget. As a component unit of the City, the Authority's financial statements are discretely presented in the City's basic financial statements. The accompanying financial statements present the financial position of the Authority only. The Authority does not have any component units and is not involved in any joint ventures.

#### **Using the Financial Statements**

The Authority's financial report includes three financial statements: the balance sheets, the statements of revenues, expenses and changes in net assets and the statements of cash flows. The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America as promulgated by the Government Accounting Standards Board (GASB). The Authority is structured as a single enterprise fund with revenues recognized when earned and expenses recognized when incurred. Capital asset related costs are capitalized and are depreciated (except land and construction in progress) over their estimated useful lives. Certain net asset balances are restricted for debt service and, where applicable, for construction activities.

The balance sheets each present the Authority's financial position as of one point in time – September 30, 2009 and 2008, and include all assets and liabilities of the Authority. The balance sheets demonstrate that the Authority's assets equal liabilities plus net assets. Net assets represent the residual interest in the Authority's assets after liabilities are deducted. Net assets are displayed in three components – invested in capital assets net of related debt, restricted, and unrestricted.

The statements of revenues, expenses, and changes in net assets report total operating revenues, operating expenses, non-operating revenues and expenses, and other changes in net assets. Revenues and expenses are categorized as either operating or non-operating based upon management's policy as established and disclosed in the notes to the financial statements. Significant recurring sources of the Authority's revenues, including PFCs, investment income and federal, state and local grants, are reported as non-operating revenues. The Authority's interest expense is reported as non-operating expense.

The statements of cash flows present information about how the Authority's cash and cash equivalents position changed during the fiscal years. The statements of cash flows classify cash receipts and cash payments as resulting from operating activities, financing activities and investing activities.

#### **Authority's Activity Highlights**

The demand for air transportation is, to a large degree, dependent upon the demographic and economic characteristics of an airport's air trade area (i.e., the geographical area served by an airport). This relationship is particularly true for origin-destination (O&D) passenger traffic, which has been the primary component of demand at JIA. The major portion of demand for air travel at the JIA is largely influenced more by the local characteristics of the area served than by individual air carrier decisions regarding hub and service patterns in support of connecting activity. JIA is classified by the Federal Aviation Administration (FAA) as a medium hub facility based on its percentage of nationwide enplanements.

Passenger enplanements at JIA for the fiscal year ended September 30, 2009, totaled 2,813,208, a decrease of 8.01% from the prior fiscal year. This decrease reflects the state of the economy and the reduced seat capacity into the JIA airport. In an effort to reduce operating costs, in response to high fuel prices and slowdown in the economy, most airlines have reduced seat capacity in US airports, either through the elimination or reduction in the number of daily flights. In fiscal year 2008, JIA had enplanements of 3,058,006, decrease of 3.46% over fiscal year 2007.

Landed weight totaled 3,559,040 for fiscal year 2009, a decrease of 20.62% from the prior year. These results for landed weights further demonstrate the changes in capacity mentioned above. In fiscal year 2008, JIA had landed weight of 4,483,698, a decrease of 1.29% from fiscal year 2007.

As in 2008, Delta Airlines and Southwest Airlines dominated 2009 in both enplanement activity and landed weight. American, Continental, Jet Blue, Northwest, United Airlines, US Airways, United Airlines and AirTran comprise the remainder of the signatory airlines serving JIA and generate the majority of the enplanements.

Passengers, enplanements and landed weights for the fiscal years ending September 30, were as follows:

	2009	2008	2007		
Total passengers	5,661,550	6,120,308	6,307,416		
% (decrease) increase	(7.50) %	(2.97) %	7.95 %		
Enplanements	2,813,208	3,058,006	3,167,664		
% (decrease) increase	(8.01) %	(3.46) %	8.31 %		
Landed weight	3,559,040	4,483,698	4,542,233		
% (decrease) increase	(20.62) %	(1.29) %	6.13 %		

For fiscal year 2009, the Jacksonville International Airport daily air carrier departures decreased to 89 from 94 and 113 departures in 2008 and 2007, respectively.

#### **Financial Highlights**

The Authority's assets exceeded liabilities for fiscal year 2009 by approximately \$431.87 million compared to \$431.89 million and \$412.67 million in fiscal years 2008 and 2007, respectively. Unrestricted funds for fiscal years 2009, 2008 and 2007 were approximately \$38.22 million, \$40.78 million and \$37.44 million, respectively. The Authority may use these funds for any lawful purpose.

The overall financial position of the Authority has decreased slightly as indicated by this fiscal year's decrease in total net assets. The improving trend for fiscal years 2009 and 2008 is due primarily to grants-in-aid of construction and earnings from continuing operations.

The Authority's total debt decreased \$7.34 million in fiscal year 2009. This is the result of normal debt service reductions.

The Authority's total debt decreased \$9.55 million in fiscal year 2008. This was the result of issuing a 2008 revenue note for \$41.49 million to pay off the 2005 revenue bonds in the amount of \$39.96 million, defeasing the 2000B revenue bonds in the amount of \$3.61 million, along with normal debt service reductions of \$7.47 million.

#### **Operating Revenues**

Fiscal year 2009 operating revenues increased by .95% over 2008 and fiscal year 2008 operating revenues decreased by 7.04% over 2007. A large percentage of operating revenues at the Authority is directly related to passenger volumes and aircraft operations.

The increase in the lease rentals from 2009 to 2008 of 29.41% is primarily attributable to increased rental rates charged the airlines. The decrease in parking revenue of 10.98% from fiscal year 2009 over 2008 is due to the decrease in enplanements. In 2009 other revenue decreased by 11.83% over 2008 due to a decrease in fuel sales.

The decrease in landing and ramp fees of 20.16% from fiscal year 2008 over 2007 was due to a reduction in the landing fee for fiscal year 2008. The decrease in the lease rentals from 2008 to 2007 of 13.09% was primarily attributable to decreased airline rental revenues.

The decrease in other revenue from 2008 to 2007 of 21.18% was primarily attributable to the reclassification of debt expense from a contra-revenue account to an expense account.

#### **Operating Expenses**

In fiscal year 2009 operating expenses before depreciation and amortization decreased by 4.08% over 2008. The primary decrease was in business travel and training of 37.90%, due to fewer trips being taken. Maintenance decreased in fiscal year 2009 over 2008 by 19.5%, due to deferring repair projects into fiscal year 2010. Other operating expenses decreased by 34.25% in fiscal year 2009 over 2008, due to lower property insurance premiums and the decrease in the cost of fuel purchased for resale.

In fiscal year 2008 operating expenses before depreciation and amortization increased by 9.19% over 2007. The primary increases were in utilities of 32.26%, due to the increase in cost of utilities and the implementation of storm water fees. Salaries and benefits increased in fiscal year 2008 over 2007 by 6.54%, due to increases in the cost of health insurance and merit increases.

In response to the recent slowdown in passengers and the weak economy, management prepared a pro-action plan that was presented to the Authority's board in September 2008 and the Authority began a program to closely monitor expenses. This analysis provided management's assessment of various scenarios that anticipate decreased revenue due to current economic conditions. Management implemented reductions in various operating expenses for fiscal year 2009, along with deferring capital to future years. The decrease in operating expenses for fiscal year 2009 over fiscal year 2008 is a direct result of these actions.

#### **Nonoperating Revenues**

Nonoperating revenues in fiscal year 2009 decreased 19.24% from 2008 and decreased 23.21% in fiscal year 2008 from 2007. The decrease in nonoperating revenues in both fiscal years was primarily due to decreased investment income due to declining balances in the 2006 construction fund account.

#### **Nonoperating Expenses**

Non-operating expenses increased by 78.75% in fiscal year 2009 due to a contribution to another government agency in the amount of \$10 million relating to an aviation project.

Non-operating expenses decreased by 12.19% in fiscal year 2008 due to the reduction in interest expense associated with the reduction in debt and the refinancing of the 2005 variable bond debt to a fixed rate.

#### **Capital contributions**

Capital contributions decreased by 21.09% in 2009. Capital contributions in fiscal year 2008 decreased by 13.38% over 2007. These fluctuations are influenced by factors such as grant availability and project timing.

#### **Summary Statements of Net Assets**

The summary statements of net assets present the financial position of the Authority at the end of each fiscal year. The summary statements of net assets include all assets and liabilities of the Authority. Net assets are the difference between total assets and liabilities and are an indicator of the current fiscal health of the Authority.

#### **Summary Statements of Net Assets (continued)**

	Septem	ber 3	30, 2008	(D	crease/ ecrease) om 2008	% Increase/ (Decrease) from 2008
Assets	(dolla	r amoi	unts in thousar	ıds)

#### **Signatory Airline Rates and Charges**

The Authority and certain airlines negotiated an airline use and lease agreement (the agreement) with an effective date of October 1, 2007 for 5 year term, which in part establishes how the airlines that signed the agreement will be assessed annual rates and charges for their use of JIA. Landing fees and terminal rental rates for non-signatory airlines are assessed at 125 percent of the signatory rates.

The agreement with the signatory airlines is hybrid in nature, with a residual rate-making methodology for the airfield and a compensatory methodology for the terminal. The Authority also has the ability under the agreement to adjust airline rates and charges at any time throughout the year to ensure adherence to all financial covenants in its bond resolutions. No such adjustments were made during fiscal years 2009, 2008 and 2007.

The rates and charges for the signatory airlines at September 30 were as follows:

	 2009	2008	2007	
Landing fees (per 1,000 lbs. MGLW)	\$ 1.40 \$	1.07 \$	1.50	
Apron fee rental (per linear foot)	303.35	309.93	323.59	
Average terminal rental rate (per square foot)	44.70	22.15	43.41	
Ticket counter (per square foot)	61.45	30.31	59.31	
Bag claim (per square foot)	49.16	24.25	47.44	

Note: 2009 rates are estimates

#### **Operating Revenues**

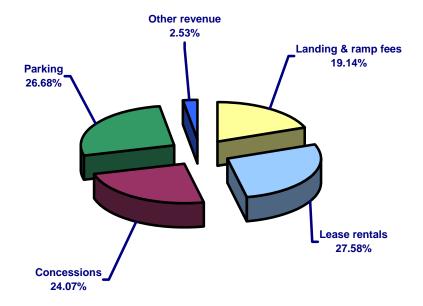

The following charts and tables show the major sources and the percentage of operating revenues for fiscal years 2009, 2008 and 2007.

Operating revenue for fiscal year 2009 increased 0.95% over 2008. Operating revenue increased over fiscal year 2008 in lease rentals.

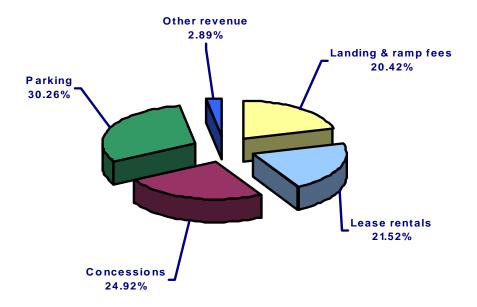

Operating revenue for fiscal year 2008 decreased 7.04% over 2007. Operating revenue decreased over fiscal year 2007 in landing and ramp fees, lease rentals, and other revenue.

Refer to the changes in net assets section of this MD&A for additional information related to operating revenues.

#### **Debt Activity**

The Authority did not issue any new debt in fiscal year 2009. Normal debt service payments reduced the overall debt by \$7.34 million.

The Authority issued \$41.49 million new debt in fiscal year 2008 in the form of a note from Compass Bank. This note refunded the 2005 revenue refunding bonds in the amount of \$39.96 million. The 2000B revenue bonds were also defeased in the amount of \$3.61 million. Normal debt service payments reduced the overall debt by \$7.47 million.

Refer to note 12 for a more detailed explanation of long-term debt activity.

#### **Debt Service Coverage**

Debt service coverage is a covenant of the bond resolutions requiring that a surplus of funds be available in the amount 125% of principal and interest due in the subsequent year. This coverage serves as an indicator to bond holders that funds are available for timely debt service payments. Historically, the Authority has maintained a coverage ratio higher than its requirement. The actual debt service coverage ratio for the fiscal years 2009, 2008 and 2007 was 1.83, 1.77 and 1.49, respectively.

#### **Cash and Investment Management**

The Authority's cash and cash equivalents decreased by \$23.53 million for fiscal year 2009 from 2008. This was primarily due to an increase in cash used by capital and related financing activities. Cash and cash equivalents, unrestricted, decreased by \$10.43 million and restricted cash and cash equivalents decreased by \$13.10 million.

The Authority's cash and cash equivalents decreased by \$58.54 million for fiscal year 2008 from 2007. This was primarily due to an increase in cash used by capital and related financing activities. Cash and cash equivalents, unrestricted, increased by \$2.12 million and restricted cash and cash equivalents decreased by \$60.66 million.

#### **Capital Construction**

During 2009, the Authority expended approximately \$44.46 million on capital activities. Major projects in 2009 at JIA were the completion of the construction and expansion of concourses A and C.

During 2008, the Authority expended approximately \$90.15 million on capital activities. Major projects in 2008 at JIA related to construction and expansion of concourses A and C.

Average monthly capital construction spending was \$3.71 million, \$7.51 million and \$5.91 million for fiscal years 2009, 2008 and 2007, respectively.

Refer to note 7 for a more detailed discussion of capital activity.

#### **Economic Factors and Next Years' Budget**

The Authority projected an increase in enplanements for fiscal year 2010 over the prior year. Revenues for fiscal year 2010 are forecasted to be approximately \$61.71 million or 3.12% above fiscal year 2009. Operating expenses before depreciation and amortization for fiscal year 2010 are forecasted to be approximately \$43.92million or 13.10% above fiscal year 2009.

The Authority expects to face continued challenges in fiscal year 2010 because of the troubled financial condition of the nation's airlines and reduced federal resources. Costs for security and other operational issues remain on the increase. The Authority continues to seek opportunities to diversify its revenues through new revenue-generating sources such as real estate development and aviation consulting.

#### **Contacting the Authority's Financial Management**

The financial report is designed to provide the Authority's board of directors, management, investors, creditors and customers with a general view of the Authority's finances and to demonstrate the Authority's accountability for the funds it receives and expends. For additional information about this report, or if you need additional financial information, please contact Chief Financial Officer, P.O. Box 18018, Jacksonville, Florida 32229-0018.

Jacksonville Aviation Authority

Notes to Financial Statements

September 30, 2009 and 2008

#### 1. Organization and Reporting Entity

#### **Organization**

The Jacksonville Aviation Authority (the Authority), a body corporate and politic, was established by the State of Florida (State) on June 5, 2001, pursuant to the provisions of Chapter 2001-319 which was amended on June 17, 2004 by Chapter 2004-464, of the Laws of Florida to own and operate aviation facilities in Duval County, Florida. The Authority is independent, distinct from, and not an agent of the State or any other of the State's political subdivisions, including the County of Duval (County). Prior to October 1, 2001, the Authority operated as a division of the Jacksonville Port Authority. Pursuant to the provisions of Chapter 2005-328 of the laws of Florida, the Authority changed its name from Jacksonville Airport Authority to Jacksonville Aviation Authority effective June 10, 2005.

The Authority's Board of Directors consists of seven members, four appointed by the Governor of the State of Florida and confirmed by the State Senate and three appointed by the Mayor of the City of Jacksonville and confirmed by the City Council. The Authority is not subject to Federal, State or local income or sales taxes.

#### **Reporting Entity**

The Authority meets the criteria set forth in accounting principles generally accepted in the United States of America (GAAP) as promulgated by the Governmental Accounting Standards Board (GASB) for inclusion as a component unit within the City's basic financial statements based on the City's approval of the Authority's budget. As a component unit of the City, the Authority's financial statements are discretely presented in the City's basic financial statements. The accompanying financial statements present the financial activities of the Authority only. The Authority does not have any component units and is not involved in any joint ventures.

#### **Implementation of New Accounting Standards**

GASB No. 49, Accounting and Financial Reporting for Pollution Remediation Obligations

The Authority evaluated their potential liability for pollution remediation obligations for activities such as site assessments and cleanups with respect to current operations and future activities. The implementation of this standard had no material impact on the Authority's financial reporting.

## Notes to Financial Statements (continued)

#### 1. Organization and Reporting Entity (continued)

GASB No. 51, Accounting and Financial Reporting for Intangible Assets

The objective of this Statement is to establish accounting and financial reporting requirements for intangible assets to reduce inconsistencies. The Authority is currently evaluating the impact of fiscal year 2010 implementation.

GASB No. 53, Accounting and Financial Reporting for Derivative Instruments

This statement addresses recognition and measurement of derivative instruments and disclosure of information about derivative instruments. The Authority is currently evaluating the impact of fiscal year 2010 implementation.

#### 2. Summary of Significant Accounting Policies

#### **Basis of Accounting**

The accompanying financial statements have been prepared on the accrual basis. The Authority reports as a business type activity, as defined by the GASB. Business type activities are those that are financed in whole or in part by fees charged to external parties for goods or services.

The Authority's activities are accounted for similar to those often found in the private sector using the flow of economic resources measurement focus and the accrual basis of accounting. All assets, liabilities, net assets, revenues, and expenses are accounted for through a single enterprise fund with revenues recorded when earned and expenses recorded at the time liabilities are incurred. Current assets include cash and amounts convertible to cash during the next normal operating cycle or one year. Current liabilities include those obligations to be liquidated with current assets.

Revenues from airlines, rental cars, parking and concessions are reported as operating revenues. Capital grants, financing or investing related transactions are reported as non-operating revenues. All expenses related to operating the Authority are reported as operating expenses. Interest expense and financing costs are reported as non-operating.

#### **Net Assets**

Net assets represent the residual interest in the Authority's assets after liabilities are deducted and consist of five sections: invested in capital assets, net of related debt; restricted for debt service, restricted for capital, restricted for other and unrestricted. Net assets invested in capital assets, net of

## Notes to Financial Statements (continued)

#### 2. Summary of Significant Accounting Policies (continued)

related debt includes capital assets, restricted and unrestricted, net of accumulated depreciation, reduced by outstanding debt net of debt service reserves. Net assets are reported as restricted when constraints are imposed by third parties or enabling legislation. The Authority's restricted assets are expendable. All other net assets are unrestricted.

#### **Proprietary Accounting and Financial Reporting**

The accompanying financial statements have been prepared in conformity with GAAP as applied to governmental units. The GASB is the accepted standard-setting body establishing governmental accounting and financial reporting principles. In accordance with the provisions of GASB Statement No. 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that use Proprietary Fund Accounting, the Authority has elected to apply all applicable GASB pronouncements as well as Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions and Accounting Research Bulletins issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements.

## **Budgeting Requirements**

The Authority's annual budgeting process is a financial planning tool used to establish the estimated revenues and expenditures for the Authority. The annual budget is developed after reviewing revenue forecasts, the impact of funding increases on landing fees, rental rates, and other rates and charges, prior year actual, current program levels, new operating requirements, and the overall economic climate of the region and airline industry. The budget to actual results are periodically reviewed throughout the year to ensure compliance with the provisions of the Authority's entity-wide annual operating budget, which is approved by the Board of Directors and the City Council of the City.

Prior to July 1 of each year, the Authority prepares and submits its budget to the City Council for the ensuing fiscal year. The City Council may increase or decrease the appropriation requested by the Authority on a total basis or a line-by-line basis. The Authority's Executive Director has been delegated the authority to approve budgetary changes to the budget within all categories, subject to the following limitations: once adopted, the total budget may only be increased through action of the City Council; operating budget item transfers may be made with the approval of the Executive Director or his designee, line-to-line capital budget transfers may be made with the approval of the Executive Director or his designee if it is cumulatively less than or equal to \$100,000 or with the approval of the Board if over \$100,000. In keeping with the requirements of a proprietary fund, budget comparisons have not been included in the financial section of this report.

Notes to Financial Statements (continued)

#### 2. Summary of Significant Accounting Policies (continued)

## **Revenue Recognition**

Airfield Landing Fee Charges – Landing fees are principally generated from scheduled airlines, cargo carriers and non-scheduled commercial aviation and are based on the landed weight of the aircraft. The estimated landing fee structure is determined annually based on full cost recovery, pursuant to an agreement between the Authority and the signatory airlines based on the operating budget of the Authority, and is adjusted at year-end for the actual landed weight of all aircraft. Landing fees are recognized as a component of operating revenue when the related facilities are utilized.

Terminal Rents, Concession and Ground Transportation – Rentals and concession fees are generated from airlines, parking structures and lots, rental cars, fixed base operators, food and beverage, retail, advertising and other commercial tenants. Leases with the airlines are based on compensatory cost recovery, through rates and charges pursuant to an agreement. Leases are typically for terms from one or more years and generally require rentals based on the volume of business, with specific minimum annual rental payments required. Rental revenue is recognized over the life of the respective leases and concession revenue is recognized based on reported concession revenue and typically partially based on a minimum rental guarantee. Rental revenue and concession revenue are recognized as operating revenues on the Statements of Revenues, Expenses, and Changes in Net Assets.

Other - All other types of operating revenue are recognized when earned.

#### Cash, Cash Equivalents and Investments

The deposit and investment of Authority monies is governed by provisions of its enabling legislation and by an investment policy adopted by the Authority. The Governing Body has authorized the Authority to establish bank accounts with a qualified public depository pursuant to Chapter 280 of the Florida Statutes. Accordingly, all of the Authority's deposits are considered fully insured.

For purposes of reporting cash flows, the Authority considers all highly liquid investments (including restricted assets) with an original maturity of three months or less when purchased to be cash equivalents. Cash equivalents, which are stated at cost, consist of money market funds and cash investment pools payable on demand.

The Governing Body has authorized the Authority to invest in obligations of the U.S. Government and certain of its agencies, repurchase agreements, investment grade commercial paper, money market funds, corporate bonds, time deposits, bankers' acceptances, state and/or local debt, and the

## Notes to Financial Statements (continued)

#### 2. Summary of Significant Accounting Policies (continued)

Florida State Board of Administration Investment Pool. Restricted bond proceeds are invested in accordance with the bond indenture agreements. Investments are stated at fair value using quoted market prices.

#### **Receivables**

Receivables are reported at their gross value when earned and are reduced by the estimated portion that is expected to be uncollectible. The allowance for uncollectible accounts is based on collection history, aviation industry trends and current information regarding the credit worthiness of the tenants and others doing business with the Authority. When continued collection activity results in receipt of amounts previously written off, revenue is recognized for the amount collected.

#### **Inventory**

Inventory consists of spare parts and fuel and they are stated at weighted average cost and FIFO, respectively.

#### **Restricted Assets**

Restricted assets consist of monies and other resources, which are legally restricted. Major classes of restricted assets are discussed below.

Construction funds – These assets represent capital debt proceeds that are restricted for designated capital projects and cannot be expended for any other purpose.

Capital recovery fund – These assets represent capital recovery proceeds that are restricted for capital improvements or bond retirement or are in the renewal and replacement fund.

Operations and maintenance fund – These assets represent proceeds restricted to pay the next succeeding two months of budgeted operations and maintenance expenses.

Passenger facility charges funds – These assets represent PFC collections based on an approved Federal Aviation Administration (FAA) application to "impose" such charges on enplaned passengers at JIA. These funds are restricted for designated capital projects and any debt incurred to finance the construction of those projects. The Authority recognizes and reports PFC's as non-operating revenue when all conditions have been met that entitle the Authority to retain the PFCs.

Notes to Financial Statements (continued)

#### 2. Summary of Significant Accounting Policies (continued)

Revenue and revenue refunding bond funds – These assets represent 2003A1, 2003A2 and 2006 airport bond debt service and reserve accounts. The debt service funds represent the principal amounts required for the annual October bond payment and the interest amounts required for the semi-annual interest payments. The reserve funds contain the maximum amount of required principal and interest payments for the bonds scheduled to come due in one year.

Renewal and replacement fund – This fund is deemed to be fully funded when the balance therein is one million dollars. These assets are to be used only to make unusual or extraordinary repairs to facilities included as a part of the airport system, to make required deposits to the debt service fund if available amounts in other funds are not sufficient for such purposes and to make required deposits to the reserve fund and rebate fund if amounts in other funds are not sufficient for such purposes.

#### **Capital Assets**

Capital assets are stated at historical cost, net of accumulated depreciation. The Authority's capitalization threshold is \$5,000. The costs for property and facilities include net interest cost incurred from the date of issuance of the debt to finance construction until completion of the capital project (see Note 8). Tenants have funded some construction and improvements of airport facilities from their own working capital. Under agreements with the Authority, the property reverts to the Authority upon termination or expiration of the agreement. These assets, when obtained by the Authority, are recorded at fair market value as of date of transfer. Major improvements and replacements of property are capitalized. Maintenance, repairs and minor improvements and replacements are expensed as incurred.

When properties are disposed of, the related costs and accumulated depreciation are removed from the respective accounts and any gain or loss on disposition is reflected in current operations.

Depreciation of capital assets is computed using the straight-line method at various rates considered adequate to allocate costs over the estimated useful lives of such assets. The estimated lives by general classification are as follows:

## Notes to Financial Statements (continued)

#### 2. Summary of Significant Accounting Policies (continued)

Asset Class	Life in Years
Buildings	5-50
Other improvements	3-50
Equipment	3-20
Intangibles	5-10

## **Capitalization of Interest**

Interest costs incurred during the construction of property, plant and equipment are capitalized. The amount of interest to be capitalized is calculated by offsetting the interest cost incurred from accumulated expenditures from the date of the construction until completion of the project, with interest earned on invested debt proceeds over the same period.

#### **Bond Issuance Costs**

Bond issuance costs represent costs incurred in the process of issuing bonds and are amortized over the life of the respective issue on a straight-line basis.

#### **Compensated Absences**

Employees accrue annual leave in varying amounts based on length of service combined with position level, up to a maximum of 320 hours.

Once an employee has a leave balance of at least 160 hours, they must take at least 80 hours of leave time-off each fiscal year. Unused annual leave can be liquidated for cash upon request, separation, retirement or death.

The liability for compensated absences earned through year-end, but not yet taken, is accrued by charging the expense for the change in the liability from the prior year.

## Notes to Financial Statements (continued)

#### 2. Summary of Significant Accounting Policies (continued)

#### **Pension Plan**

The provision for retirement pension cost is recorded when the related payroll is accrued and the obligation is incurred.

#### **Capital Contributions: Federal and State Grants**

The Authority receives federal and state grants in support of its capital construction program. The federal program provides funding for airport development, airport planning and noise compatibility programs from the Airport and Airways Trust Fund in the form of both entitlement and discretionary grants for eligible projects. The State of Florida and individual tenants also provide funds for capital programs.

Certain expenditures for airport capital improvements are funded through the airport improvement program (AIP) of the FAA, with certain matching funds provided by the State of Florida's Department of Transportation and the Authority, or from various state allocations or grant programs. Capital funding provided under government grants is considered earned as the allowable expenditures are incurred.

Grants for capital asset acquisition, facility development and rehabilitation and eligible long-term planning studies are reported in the statement of revenues, expenses and changes in net assets, after non-operating revenues and expenses, as capital contributions.

#### **Passenger Facility Charges**

In 1990, Congress approved the Aviation Safety and Capacity Expansion Act which authorized domestic airports to impose a PFC on enplaning passengers. In May 1991, the FAA issued the regulations for the use and reporting of PFCs. PFCs may be used for airport projects that meet at least one of the following criteria: preserve or enhance safety, security, or capacity of the national air transportation system; reduce noise or mitigate noise impacts resulting from an airport; or furnish opportunities for enhanced competition between or among carriers.

Notes to Financial Statements (continued)

#### 2. Summary of Significant Accounting Policies (continued)

PFC charges at the rate of \$3 per enplaned passenger have been levied by the Authority since April 1, 1994, under an FAA approved application to impose \$12,258,255 in PFC fees. Since this first record of decision the Authority has submitted and received approval to collect \$371,954,476, since inception through December 1, 2023. In February 2003, with an earliest charge effective date of May 1, 2003, the FAA approved an amendment to impose and use passenger facility charge, at JIA at a new rate of \$4.50. This amendment also permits the Authority to finance certain projects with PFC revenues. Through September 30, 2009, the Authority has collected, including interest earnings, PFCs totaling approximately \$137,294,000. PFCs, along with related interest earnings are recognized and recorded as non-operating revenue in the year collected by the air carriers.

The Authority has expended approximately \$133,563,000 of PFCs on projects funded on a pay-as-you-go and financing basis.

#### **Arbitrage Rebate Liability**

The United States Treasury has issued regulations on calculating the rebate due to the United States Government on arbitrage profits and determining compliance with the arbitrage rebate provisions of the Tax Reform Act of 1986. Arbitrage profits arise when the Authority temporarily invests the proceeds of tax-exempt debt in securities with higher yields. The Authority had a liability of \$350,162 on the 2006 bonds as of September 30, 2009.

#### **Management Estimates**

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, through subsequent events, actual results could differ from those estimated.

#### Reclassifications

Certain 2008 amounts have been reclassified to conform to the 2009 presentation.

## Notes to Financial Statements (continued)

#### 3. Investments

**Investment Maturity Distribution** 

		Less		One to		
		than		Five		
Type of investments	O	ne Year		Years		Total
		(d	lollar am	ounts in thousand	ds)	
U.S. Government and agency securities	\$	17,690	\$	21,942	\$	39,632
Local Government investment pool		388		-		388
Investment in money market mutual funds		33,499		-		33,499
	\$	51,577	\$	21,942	\$	73,519

The primary objectives of the Authority's investment policy are the safety of capital, the liquidity of the portfolio and the yield of the investments. Bond proceeds may be invested in securities as permitted in the bond indentures. Otherwise, assets of the Authority may be invested in (a) the Florida Local Government Surplus Funds Trust Fund; (b) United States government securities, (c) United States government agencies, federal instruments; (d) federal instrumentalities; (e) interest bearing time deposit or savings accounts, provided that any such deposits are secured by the Security for Public Deposits Act, Chapter 280, Florida Statutes; (f) repurchase agreements; (g) commercial paper at the time of purchase rated "A-1" by Standard & Poor's (S&P) and "P-1" by Moody's Investor Services (Moody's); (h) corporate notes that have a long-term debt rating at the time of purchase, at a minimum "AA" by S&P and "Aa" by Moody's (i) bankers' acceptances rated, at a minimum, "A-1" by S&P and "P-1" by Moody's; (j) state and/or local government taxable and/or taxexempt debt rated at least "AA" by S&P and "Aa" by Moody's or rated at least "SP-1" by S&P or "MIG-1" by Moody's for short-term debt; (k) registered investment companies (money market mutual funds) registered under the Federal Investment Company Act of 1940 and operated in accordance with 17 C.F.R. 270.2a-7; (1) mortgage-backed securities; (m) asset-backed securities; and (n) short term bond funds.

Consistent with the Authority's investment policy bond resolutions: 1) all of the U.S. government agency securities held in the portfolio are issued or guaranteed by agencies created pursuant to an Act of Congress as an agency of the United States of America and at the time of their purchase were rated

Notes to Financial Statements (continued)

#### 3. Investments (continued)

AAA by S&P; 2) the Local Government Surplus Funds Trust Fund is unrated; it is administered by the State Board of Administration, under the regulatory oversight of the State of Florida, Chapter 19-7 of the Florida Administrative Code. The value of the Authority's investment position in the Local Government Surplus Funds Trust Fund external investment pool (2a-7-like pool) is the same as the value of the pool shares; 3) the money market mutual funds are each rated AAA by S&P. The investments in the Local Government Surplus Funds Trust Fund and the money market mutual funds are classified as cash equivalents on the accompanying balance sheet.

#### **Interest Rate Risk**

Section 218.415(17), Florida Statutes, limits investment maturities to provide sufficient liquidity to pay obligations as they come due. As a means of limiting its exposure to fair value losses arising from rising interest rates, the Authority's investment policy requires the investment portfolio to be structured in such a manner as to provide sufficient liquidity to pay obligations as they come due. To the extent possible, investment maturities are matched with known cash needs and anticipated cash flow requirements. Additionally, maturity limitations for investments related to the issuance of debt are outlined in the bond resolution relating to those bonds issues. The Authority's investment policy also limits investments in commercial paper to maturities not to exceed 270 days.

#### **Custodial Credit Risk**

All securities purchased by, and all collateral obtained by, the Authority under its investment policy shall be properly designated as assets of the Authority and may be held in safekeeping by a third party custodial bank or other third party custodial institution. As of September 30, 2009, all investments of the Authority are held with an appropriate custodian or trustee or are held in accounts in the name of, and belonging to, the Authority.

#### **Concentration of Credit Risk**

Exclusive of restricted funds, the following are the Authority's investment percentages allocations. The Authority's investment in the Florida Local Government Surplus Funds Trust Fund and the United States Government Securities shall not exceed 100% of the total investment portfolio. The Authority shall not exceed 80% of its portfolio value invested in Federal Instrumentalities. Total United States Government Agencies, Repurchase Agreements, and Registered Investment Companies held by the Authority shall each not exceed 50% of the total value of the investment portfolio. The Authorities investment in Commercial Paper and Bankers 'Acceptances shall not exceed 35% of the

## Notes to Financial Statements (continued)

#### 3. Investments (continued)

total investment portfolio. Maximum exposure to any Interest Bearing Time Deposits or Savings Accounts, Corporate Notes or Short Term Bond Funds shall be limited to 25% of the total investment portfolio. Maximum exposure to Mortgage-Backed Securities and State and/or Local Government Taxable and/or Tax-Exempt Debt shall not exceed 20% of the total investment portfolio. The Authority shall not exceed 10% of its portfolio value for Asset-Backed Securities.

As of September 30, 2009, all investment holdings of the Authority are in compliance with these policies. Investments in any one issuer representing 5% or more of the Authority's total investments at September 30, 2009 are as follows: \$6.96 million (9.46%) invested in issues of the Federal National Mortgage Association, \$5.26 million (7.16%) invested in the Federal Home Loan Mortgage Corporation, \$11.42 million (15.54%) invested in the Federal Home Loan Bank, and \$4.02 million (5.47%) invested in the Federal Farm Credit Bank.

Notes to Financial Statements (continued)

#### 3. Investments (continued)

The Authority follows GASB No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools, which requires the adjustment of the carrying value of investments to fair value to be represented as a component of investment income. Investments are presented at fair value, which is based on available or equivalent market values. The Local Government Surplus Funds Trust Fund Investment Pool (the "Pool"), created by Section 218.405, Florida Statutes, is operated by the Florida State Board of Administration and is a "2a-7 like" pool in accordance with GASB No 31; therefore, it is not presented at fair value but at its actual pooled share price, which approximates fair value. A 2a-7 like pool is not registered with the SEC as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a-7 of the Investment Company Act of 1940. Surplus Funds Trust Funds is administered by the State Board of Administration, under the regulatory oversight of the State of Florida, Chapter 19-7 of the Florida Administrative Code. The money market mutual funds are 2a-7 funds registered with SEC.

During November 2007 it became apparent that the Pool was encountering difficulty in meeting increased cash withdrawals from various investors due to a portion of its investments being held in downgraded securities. On December 4, 2007, based on recommendations from an outside financial advisor, the State Board of Administration split the Pool into two funds. Pool A, with higher quality securities, which was approximately 86% of total Pool assets. Pool B consisted of assets that had actual or perceived credit or liquidity risk, which was approximately 14% of total Pool assets. At the time of the restructuring, all pool participants had their existing balances proportionately allocated into Pool A and Pool B. As payments are received from the assets in Pool B, cash is transferred periodically to Pool A and participants may withdraw such distributions. Therefore, as Pool B is no longer operating as a 2a-7 like pool, the Authority has classified the \$470 thousand as an investment for balance sheet purposes at fair market value. As of September 30, 2009 and September 30, 2008 respectively the Authority had no money invested in Pool A and \$388 and \$470 thousand in Pool B.

## Notes to Financial Statements (continued)

#### 4. Contributions to Other Governments

On January 31, 2007 the Authority entered into a Letter of Agreement with Florida Community College (FCCJ) in Jacksonville Florida. The Authority and FCCJ agreed to work together to develop an aircraft painting and education facility at the Cecil Commerce Center at the Cecil Airport.

FCCJ received a grant from the State of Florida Department of Education in the amount of \$10 million under a program where FCCJ was eligible for state matching funds equal to cash received from local or private sources. The Authority contributed \$10 million to the FCCJ Foundation (a direct support organization to FCCJ) on behalf of FCCJ. The Authority treated this transaction as a nonexchange transaction, in which the Authority gives value without directly receiving equal value in exchange. The eligibility requirements were that FCCJ receive the matching funds, a search be conducted for a company to manage and operate the painting facility and a managerial contract be negotiated, along with a negotiated lease of the property.

In fiscal year 2007 and 2008 the Authority recorded this \$10 million as an asset under deposits with other agencies, as the eligibility requirements had not been met at that time. In fiscal year 2009 all applicable eligibility requirements were met and the \$10 million was recognized by the Authority as a non-operating expense.

## Notes to Financial Statements (continued)

#### 5. Receivables

Accounts receivable are recorded net of allowances for uncollectible accounts of \$535,000 and \$731,000, at September 30, 2009 and 2008, respectively. Accounts receivable at year-end are comprised of the following:

	Percent of Balance					
	Septem	ber 30,				
	2009	2008				
Receivable from:						
Airlines	69.66%	66.58%				
Concessionaires/non-aviation	26.05%	28.40%				
Parking customers	4.29%	5.02%				

The Authority and one of its tenants entered into an operating and lease agreement on February 25, 2005 wherein the Authority renovated and expanded Hangar 815. In consideration for this renovation, a note receivable was issued for \$4,626,660 to the tenant and the receivable is being repaid over twenty-five years at a rate of interest between 6% and 9%. The current rate of interest for 2009 is 6%.

The Authority and one of its tenants entered into an operating and lease agreement wherein the tenant agreed to retroactive rental and improvement payments. In consideration for these payments, a note receivable was issued on April 1, 2009 for \$465,171 to the tenant and the receivable is being repaid over the next 83 months. The current rate of interest for 2009 on the retroactive rental payment is 3.5%.

## Notes to Financial Statements (continued)

#### 8. Capitalized Interest

During the fiscal years ended September 30, 2009 and 2008 the Authority capitalized interest of \$393,184 and \$1,663,602, respectively, as part of the cost of construction in progress.

#### 9. Pension Plans

#### **Plan Description**

#### Florida Retirement System

The majority of the full-time employees of the Authority participate in the Florida Retirement System (the FRS), a cost sharing multiple-employer defined benefit plan. Benefit provisions are established under Chapter 121, Florida Statutes, which may be amended by the Florida Legislature. The FRS is administered by the State of Florida, Division of Retirement.

The FRS provides vesting of benefits after six (6) years of creditable service. Members are eligible for normal retirement after they have met one of the following: (1) six years of service and age 62, or the age after age 62 that the member becomes vested, or thirty years of service regardless of age (may include four years military), whichever comes first.; or (2) six years of special risk service and age 55, or twenty-five total years of special risk services and age 52 (may include four years wartime military service), or twenty-five total years special risk service, regardless of age, or thirty years of any creditable service, regardless of age (may include four years wartime military service). Early retirement may be taken any time after completing six years of service; however, there is a 5% benefit reduction for each year prior to normal retirement age. Benefits are computed on the basis of age, average final compensation, and service credit. Average final compensation is the average of the five highest years of earnings. The FRS also provides death and disability benefits. Benefits are established by Florida Statutes.

The FRS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by writing to the Florida State Retirement System, Division of Policy, Cedars Executive Center Building C, 2639 North Monroe Street, Tallahassee, Florida 32399-1560, attention Research and Education; or by contacting Research & Education by email at rep@frs.state.fl.us, or by phone at (850) 488-5706.

Notes to Financial Statements (continued)

#### 9. Pension Plan (continued)

## City of Jacksonville, Florida General Employees' Pension Plan

The Authority no longer has employees who participate in the City's General Employees' Pension Plan (the Plan). No further employees, either current or future, are eligible to participate in the Plan. In fiscal year 2009 after legal review, it was determined that the three employees participating in the plan at the end of fiscal year 2008 should be participating in FRS as compulsory FRS members. This legal opinion is based on the language of House Bill 903, Chapter 2001-319, Laws of Florida. In fiscal year 2009 the three employees were moved to the FRS plan. All required contributions were calculated retroactively to October 2001 and remitted to FRS during fiscal year 2009. The Authority received a refund of prior years contributions made on behalf of the three employees from the Plan.

At September 30, 2008 the Authority had three employees who participated in the plan. The Plan is a cost-sharing, multiple-employer contributory defined benefit pension plan. The Plan is administered by a seven-member board of trustees that makes recommendations to the City Council. The City Council is responsible for establishing or amending the pension plan provisions.

The Plan provided for retirement, survivor, death and disability benefits. Under normal retirement provisions, a member may retire after reaching the age of 55 with 20 years of creditable service or at 65 with 5 years or more of creditable service. The requirements for early retirement are: (1) when an employee reaches age 50 and has 20 years of service, reduced ½% per month for retirement prior to age 55; (2) any age after 25 years of service adjusted to a benefit accrual rate of 2% per year; and (3) any age after 30 years of creditable service at an unreduced rate of 2 1/2 % per year.

Benefits vest after 10 years of creditable service equal to 2½% of a member's average earnings for each year of creditable service up to 32 years with a maximum of 80%. Average earnings are the average monthly salary or wages for the highest 36 months of employment within the ten years preceding retirement. The regular benefit is increased by 3% on the April 1 nearest the fifth anniversary of the initial benefit commencement date, and on each April 1 thereafter. A monthly supplement is payable equal to \$5 times the number of years of creditable service to subsidize retiree's health insurance. However, only that portion of the increase in excess of the supplement is payable. Members who terminate covered employment with less than ten years of creditable service shall be paid a refund of 100% of their contributions to the Plan. There is no mandatory retirement age. The City issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by writing to the City of Jacksonville, 117 West Duval Street, Suite 375, Jacksonville, Florida 32202, attention City Comptroller, or by calling (904) 630-1250.

Notes to Financial Statements (continued)

#### 9. Pension Plan (continued)

## **Funding Policy**

#### Florida Retirement System

The Authority is required by Florida Statute to contribute monthly employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll are adequate to accumulate sufficient assets to pay benefits when due. Level-percentage-of-payroll employer contribution rates, established by state law, are determined using the entry-age actuarial funding method. If an unfunded actuarial liability reemerges, as a result of future plan benefit changes, assumption changes, or methodology changes it is assumed any unfunded actuarial liability would be amortized over 30 years, using level dollar amounts. Except for gains reserved for rate stabilization, it is anticipated future actuarial gains and losses are amortized on a rolling 10% basis, as a level dollar amount. For the period from July 2008 through June 2009 the contribution percentage was 20.92% for special risk participants, 10.91% for deferred retirement option participants, 13.12% for senior management participants, and 9.85%, for regular participants. Effective July 1, 2009 the contribution percentages were unchanged from the prior year. Covered employees are not required to make contributions to FRS.

#### City of Jacksonville, Florida General Employees' Pension Plan

The Authority was required by city ordinance to contribute 10.43% of eligible wages, depending on the employees' date of hire, as of September 30, 2008. As of September 30, 2009 there were no employees in this plan. The City's funding policy provides for contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are adequate to accumulate sufficient assets to pay benefits when due. Level percentages of payroll employer contribution rates are determined using the entry-age actuarial cost method. Under this method, the cost of each member's projected retirement benefit is funded through a series of payments, determined as a level percentage of each year's earnings, from age at hire to assumed exit age. The level-percentage-of-payroll method is also used to amortize the unfunded liability and changes in Plan provisions, actuarial assumptions and gains and losses over a period of 30 years. If the Plan is in a surplus position, the surplus is recognized as an amortization credit in a level dollar amount over 10 years. The amortization period is closed. The employees participating in this Plan were required to contribute 8.00% of eligible wages which are actuarially determined.

Contributions made to both the FRS and the Plan were \$1,391,261, \$1,461,525 and \$1,492,072 for the years ended September 30, 2009, 2008 and 2007, which were equal to the required contribution.

Notes to Financial Statements (continued)

#### 10. Deferred Compensation Plan

The Authority offers its employees a deferred compensation plan (the 457 Plan) created in accordance with IRS Code Section 457. The 457 Plan, which is available to all full-time employees, permits employees to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. Investments are managed by the 457 Plan's trustee under one of several investment options, or a combination thereof. The choice of the investment option(s) is made by the participant.

All 457 Plan assets are held by trustees for the exclusive benefit of participants and beneficiaries. Thus, the assets and liabilities relating to the 457 Plan are not reflected on the Authority's balance sheet. The market value of the 457 Plan's investments was \$3,979,069 and \$4,030,116 respectively, as of September 30, 2009 and 2008.

The Authority also offers its employees a deferred compensation plan (the 401(a) Plan), created in accordance with the IRS Code Section 401(a). The Authority contributes a specified amount for each dollar the employee defers to the 401(a) Plan. All 401(a) Plan assets are held by trustees for the exclusive benefit of participants and beneficiaries. The market value of the 401(a) Plan's investments was \$1,176,306 and \$1,000,296 respectively, as of September 30, 2009 and 2008.

#### 11. Postretirement Health and Other Benefits

#### **Plan Description**

The Authority provides medical, pharmacy, dental, vision and life insurance benefits for eligible retirees and their dependents under a single-employer healthcare plan administered by the Authority. An employee is eligible to receive benefits from the plan upon retirement under FRS plan provisions. To be eligible for retiree benefits, the employee must be covered under the medical plan as an active participant immediately prior to retirement. Participants not eligible for retirement at the time of their termination are not eligible for immediate or future benefits from the plan.

Retiree and spousal coverage is provided for the lifetime of the participants. However, benefits are valued as payable only until age 65, as the option of enrolling in Medicare is a much more attractive option at a lower cost.

Notes to Financial Statements (continued)

## 11. Postretirement Health and Other Benefits (continued)

The Authority is required to value their postretirement health and other benefits biennial. The most recent actuarial valuation date was fiscal year ended September 30, 2009. The Authority implemented GASB Statement 45, Accounting and Reporting by Employers for Postemployment Benefits Other than Pensions (OPEB), in fiscal year 2008, for certain postemployment healthcare plans provided by the Authority. The requirements of the statement were applied prospectively, with the actuarially determined liability of \$2.93 and \$2.63 million as of October 1, 2009 and 2008 dates of transition being amortized over 30 years. Accordingly, the liability of \$693 and \$345 thousand is recorded as long-term liability on the balance sheet for fiscal year 2009 and 2008, respectively.

Due to its size, vision benefits are not being included in the valuation. Life insurance benefits are provided on a fully insured basis and are provided by unsubsidized retiree contributions. As such, life insurance benefits are not being included in the valuation.

#### **Funding Policy**

The contribution requirements of plan members and the Authority are established by the Authority. The required contribution is based on a projected pay-as-you-go financing requirement. In fiscal year 2009 and 2008 plan members receiving benefits contributed \$62 thousand and \$44 thousand, respectively, or approximately 15.12% and 11.31% of the total premiums, through their required contribution. Plan members are required to pay 100% of the premium for the plans selected. Monthly premium amounts vary depending on the plans selected and choice of coverage for employee only or employee plus spouse.

#### **Annual OPEB Cost and Net OPEB Obligation**

The Authority's OPEB cost is calculated based on the annual required contribution of the employer, (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liability, or funding excess, over a period not to exceed thirty years.

## Notes to Financial Statements (continued)

#### 11. Postretirement Health and Other Benefits (continued)

The following table shows the components of the Authority's annual OPEB cost for the fiscal years 2009 and 2008, the amount actually contributed to the plan, and changes in the Authority's net OPEB obligation.

		September 30, 2009	September 30, 2008				
	(dollar amounts in thousands)						
Determination of Annual Required Contribution							
Normal cost at year end	\$	247	\$	237			
Amortization of UAAL		169		152			
Annual required contribution (ARC)	\$	416	\$	389			
Determination of net OPEB obligation							
Annual required contribution	\$	416	\$	389			
Interest on prior year net OPEB obligation		14		-			
Adjustment to ARC		(20)		-			
Annual OPEB cost	\$	410	\$	389			
Contributions made*		62		44			
Increase in net OPEB obligation	\$	348	\$	345			
Net OPEB obligation - beginning of year		345					
Net OPEB obligation - end of year	\$	693	\$	345			

<sup>\*</sup>Assuming no additional funding, employer contributions will be equal to the net expected employer benefit payments (gross benefit cost offset by the retiree's contributions) during the 2008-09 and 2007-08 fiscal year. GASB 45 defines contributions for this purpose to be actual benefit payments during the year plus contributions, if any, made to a separate, irrevocable trust.

The following table shows the annual OPEB cost and net OPEB obligation at September 30, 2009 and 2008:

		Percentage of						
Fiscal	Annual	Authority	<b>OPEB Cost</b>	Net OPEB				
Year Ended	OPEB Cost	Contribution	Contributed	Obligation				
	(dollar ar	mounts in thousands)						
9/30/2008	\$389	\$44	11.31%	\$345				
7/30/2000	Ψ309	Ф <del>44</del>	11.5170	\$3 <del>4</del> 3				

## Notes to Financial Statements (continued)

#### 11. Postretirement Health and Other Benefits (continued)

#### **Funded Status and Funding Progress**

As of September 30, 2009 and September 30, 2008 the plan was not funded. The actuarial accrued liability (AAL) for benefits was \$2.93 and \$2.63 million, respectively. The actuarial value of assets for both 2009 and 2008 was zero, resulting in an unfunded actuarial accrued liability (UAAL) of \$2.93 and \$2.63 million in 2009 and 2008. For fiscal years 2009 and 2008 the covered payroll (annual payroll of active employees covered by the plan) was \$13.04 and \$12.45 million, respectively. The ratio of the UAAL to the covered payroll was 22.47% for 2009 and 21.11% for 2008.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrences of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents the most recent actuarial valuation date of September 30, 2009 and September 30, 2008 relating to the actuarial accrued liability.

#### **Actuarial Methods and Assumptions**

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and included the types of benefits provided at the time of valuation and the historical pattern of sharing of benefit costs between the employer and plan members at that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and actuarial value of assets, consistent with long-term perspective of the calculations.

The fiscal year 2009 and 2008 actuarial valuations were computed using the unit credit actuarial cost method, which consists of the following components: (1) the normal cost is the actuarial present value of benefits allocated to the valuation year; (2) the actuarial liability is the actuarial present value of benefits accrued as of the valuation date; (3) valuation assets are equal to the market value of assets as of the valuation date, if any; and (4) unfunded actuarial liability is the difference between the actuarial liability and the valuation assets. It is amortized over the maximum permissible period under GASB 45 of 30 years.

It should be noted that GASB 45 allows a variety of cost methods to be used. The Authority elected this method because it is generally easy to understand and is widely used for the valuation of postemployment benefits other than pensions. Other methods used do not change the ultimate

## Notes to Financial Statements (continued)

#### 11. Postretirement Health and Other Benefits (continued)

liability, but do allocate it differently between what has been earned in the past and what will be earned in the future.

The actuarial assumptions used for the calculation of costs and liabilities are as follows: The September 30, 2009 and 2008 accumulated postretirement benefit obligation (APBO) for pre-65 years of age employees was determined using assumed medical care cost trend rates of 9.30% decreasing one half percent each year to an ultimate rate of 5%. Dental care cost trend rates were 5% for each year. The discount rate used was 4%. The actuarial liability was determined under the unit credit cost method.

#### 12. Long-Term Indebtedness

A summary of changes to long-term indebtedness follows:

## 2003 Airport Revenue Refunding Bonds, Series A-1 & A-2

In 2003, the Authority issued \$75,065,000 of airport revenue refunding bonds, with interest rates ranging from 2.0% to 5.25%, and principal maturing in varying amounts through October 1, 2017. The proceeds of the Series 2003A-1 bonds were used to refund the Jacksonville Port Authority airport revenue refunding bonds, Series 1993, fund the reserve requirement for the bonds and pay the cost of issuance of the bonds. The proceeds of the Series 2003A-2 bonds were used to refund the Jacksonville Port Authority airport revenue refunding bonds, Series 1998, fund the reserve requirement for the bonds and pay the cost of issuance of the bonds. The 2003A-1 and A-2 bonds are insured by Financial Guaranty Insurance Company. The 2003A-1 and A-2 bonds were assigned an underlying rating "A3" by Moody's and "A" by Fitch.

The Authority through the defeasance of the 1993 and 1998 revenue refunding bonds reduced its aggregate debt service payments by \$8,195,000 over the next 15 years and will obtain an economic gain (difference between the present value of debt service of the refunded bonds and cash escrow) of \$5,786,000.

Maturities of the long-term outstanding 2003 revenue refunding bond issue will require the following principal and interest payments based on the amounts outstanding at September 30, 2009:

Year Ending September 30,	P	rincipal	Interest		Total		
		(dollar amounts in thousands					
2010	\$	4,985	\$	2,337	\$	7,322

Total	\$	52,560	\$	12,064	\$	64,624	

Notes to Financial Statements (continued)

#### 12. Long-Term Indebtedness (continued)

## 2005 Airport Revenue Refunding Bonds

In 2005, the Authority issued \$41,815,000 of airport revenue refunding bonds, which were initially issued as weekly certificates. At any given time, any particular Series 2005 bonds may operate in any one (but not more than one) of the following rate periods: the auction period, daily rate period, weekly rate period, short-term rate period, long-term rate period or fixed rate period. Interest payment dates will occur the first business day of each calendar month with principal maturing in varying amounts through October 1, 2024. The proceeds of the Series 2005 bonds were used to refund the Authority's outstanding airport revenue bonds, Series 2000A, and to pay the costs of issuing the Series 2005 bonds. The 2005 bonds are insured by Financial Guaranty Insurance Company. The 2005 bonds were assigned an underlying rating of "A2" by Moody's and "A" by Fitch.

On April 1, 2008 the 2005 airport revenue refunding bond was legally defeased by the 2008 Compass note in the amount of \$39.96 million.

## Notes to Financial Statements (continued)

#### 12. Long-Term Indebtedness (continued)

#### **2006 Airport Revenue Bonds**

On October 11, 2006, revenue bonds Series 2006 (AMT) were issued in the amount of \$129,190,000. They were issued in fully registered form in initial denominations of \$5,000 or any integral multiple thereof at a fixed rate of interest between 4.4% and 5%. The purpose of the 2006 bonds are for financing the costs of acquisition, construction and installation of capital improvements to JIA, paying the cost of a municipal bond insurance policy, funding a portion of the reserve requirement and paying issuance costs.

Concurrently with the issuance of the 2006 bonds, Ambac Assurance Company issued its municipal bond insurance policy for the 2006 bonds. The policy guarantees the scheduled principal payment and interest on the 2006 bonds when due.

Moody's, S&P, and Fitch Ratings ("Fitch') have assigned their municipal bond ratings of "Aaa", "AAA" and "AAA" to the 2006 bonds. Moody's, S&P and Fitch have also assigned underlying ratings of "A2", "A-"and "A", respectively, to the 2006 bonds.

Maturities of the long-term outstanding 2006 revenue bond issue will require the following principal and interest payments based on the amounts outstanding at September 30, 2009:

Year Ending September 30,	P	rincipal	]	Interest	Total	
		(dollar	(s)			
2010	\$	2,055	\$	5,896	\$	7,951

## 2008 Compass Note

On April 1, 2008 a note was issued from Compass Bank (Compass) in the amount of \$41,490,000. The purpose of the note was to refund the 2005 airport revenue refunding bonds, pay a portion of the 2005 swap termination fee and pay issue costs. The note has a variable interest rate of 65% of 1-month LIBOR plus 64.35 basis points (0.6435%). The annual interest rate at September 30, 2009 was .8133%. The estimated economic gain on this transaction is \$1.60 million over the life of the note.

Payments of the long-term outstanding note will require the following principal and interest payments based on the amounts outstanding at September 30, 2009:

Year Ended	Principal			Interest		Total
		(dol	nds)			
2010	\$	1,965	\$	325	\$	2,290
2011		2,030		309		2,339

## Interest Rate Swap Agreement between Compass Bank and the Jacksonville Airport Authority

On March 18, 2008 the Authority entered into a new interest rate swap with Compass as part of a refunding of the Authority's outstanding series 2005 revenue refunding bonds and issuance of the 2008 Compass note. The objective of the swap is to synthetically create a fixed-rate debt.

The executed transactions consisted of a new \$41,490,000 floating-to-fixed "matched rate" swap effective April 1, 2008 whereby the Authority pays to Compass a fixed rate of 3.4116% and receives from Compass 65% of 1-month LIBOR plus 64.35 basis points (0.6435%). The fixed interest rate is recorded as interest expense and the interest received from Compass is recorded as interest income. The swap's notional amount of \$41.49 million matches the \$41.49 million Compass note. The note and the related swap agreement mature on October 1, 2024.

The Authority received no upfront fees related to the swap transaction executed on March 18, 2008. As per the terms of the swap, on behalf of the Authority, an advisory fee of approximately \$25,000 was paid by the Authority to the Financial Advisor, Public Financial Management. This fee was contingent upon completion of the swap transaction.

As of September 30, 2009, the fair value of the swap was (\$2,008,484.16), which represents the amount the Authority would pay to exit the swap transaction as of that date based on prevailing interest rates.

Associated note 2008 Compass Note

Notional amount \$41,490,000 (amortizing)

Counterparty Compass
Counterpart credit rating Aa3/A+/A+

## Notes to Financial Statements (continued)

#### 12. Long-Term Indebtedness (continued)

#### **Risks**

#### **Credit Risk:**

As of September 30, 2009, the Authority is not exposed to credit risk or the risk of economic loss due to a counterparty default on its outstanding swap because the swap had a negative fair value. However, should interest rates change and the fair values of the swap become positive the Authority would be exposed to credit risk in the amount of the swap's fair value. Moody's, S&P, and Fitch have assigned ratings of Aa3, A+ and A+, respectively, to Compass. The swap agreement contains varying collateral agreements with the counterparties. The swap requires collateralization of the fair value of the swap should the counterparty's credit rating fall below the applicable thresholds.

#### **Interest Rate Risk:**

The Authority has no interest rate risk associated with the outstanding swap that would adversely affect the Authority's cash flow, since interest paid and received on the swap are based on the same index. The Authority is exposed to interest rate risk as it relates to the fair value of the swap in the event of termination.

#### **Basis Risk:**

The Authority has no basis risk associated with the outstanding swap. The interest rate for the swap interest expense is based on the same index as the interest received from the swap, 65% of the one monthly LIBOR rate plus .6435 basis points.

#### **Termination Risk:**

The Authority or the counterparty may terminate the swap if the other party fails to perform under the terms of the respective contracts. As of September 30, 2009 the swap termination fee had a negative fair value, therefore the Authority would incur additional expenses relating to termination.

#### Notes to Financial Statements (continued)

#### 12. Long-Term Indebtedness (continued)

#### **Swap Payments and Associated Debt**

Using rates as of September 30, 2009, debt service requirements of the Compass note and net swap payments, assuming current interest rates remain the same, are below. As rates vary, bond interest payments and swap payments will vary.

Year Ending	r Ending Principal		Interest	S	wap, Net		Total
September 30,							
2010	\$	1,965	\$ 325	\$	1,039	\$	3,329
2011		2,030	309		986		3,325
2012		2,100	292		933		3,325
2013		2,170	275		877		3,322
2014		2,245	257		820		3,322
2015 - 2019		12,445	992		3,168		16,605
2020 - 2024		14,735	440		1,407		16,582

Total	\$	40,950	\$ 2,903	\$	9,273	\$	53,126

Notes to Financial Statements (continued)

#### 13. Airline Lease and Use Agreements

The Airline Agreements provide for the lease to signatory airlines of exclusive use of certain premises, non-exclusive use of certain public use premises in the terminal and in the ramp area and non-exclusive use of the landing area at JIA. The current signatory airline agreement has a 5-year term and expires on September 30, 2012.

For the purposes of accounting for costs, expenses and revenues and establishing signatory airline rentals, fees and charges, the airline agreements provide for dividing the airport system into separate cost centers. Certain cost centers are designated direct cost centers and others are designated indirect cost centers. The indirect cost centers are used to accumulate indirect costs which are then allocated to the direct cost centers. Two direct cost centers, the terminal and the airfield are included in the establishment of rentals, fees and charges for signatory airlines. The airline agreements provide that the aggregate of rentals, fees and charges of all signatory airlines will be sufficient to pay for the net costs attributable to the airfield and that percentage of the terminal derived by dividing the aggregate number of square feet of rentable space in the terminal demised to signatory airlines as exclusive use premises and joint use premises by the total aggregate number of square feet of rentable space in the terminal, which costs will include the satisfaction of all of the Authority's obligations to make deposits and payments under the bond resolution which are properly attributable to such areas. Notwithstanding the foregoing, no signatory airline will be obligated under the airline agreements to pay terminal rentals, fees and charges properly charged against another signatory airline and not paid by such other signatory airline. In addition, satisfaction of all of the Authority's obligations to make deposits and payments under the bond resolution which are properly attributable to new loading bridges, baggage make-up conveyors and devices and other terminal equipment will be paid by the signatory airlines to which such equipment is leased.

The remaining cost centers (excluded cost centers) of the airport system are ground transportation, non-aviation, Craig Airport, Herlong Airport, aviation and Cecil Field. The signatory airlines have no responsibility under the airline agreements for the payment of any costs incurred by the Authority and attributable to the excluded cost centers.

Notes to Financial Statements (continued)

#### 13. Airline Lease and Use Agreements (continued)

Approximately ninety percent of the net costs attributable to the airfield are allocated among the signatory airlines on the basis of landed weight of aircraft and paid as landing fees. The net costs of the ramp area are deemed to be approximately ten percent of the net costs attributable to the airfield and are allocated among the signatory airlines on the basis of linear footage of aircraft parking positions and paid as aircraft parking position fees. All costs attributable to the terminal, except for costs attributable to terminal equipment which are payable by the signatory airlines to which such equipment is leased, are allocated on the basis of total rentable space in the terminal. Each signatory airline is responsible for the payment of rentals, fees and charges sufficient to pay those costs allocated to the premises in the terminal leased to such airline.

Rentals, fees and charges for the signatory airlines will be sufficient to provide for the payment of all net costs attributable to the airfield and to new loading bridges, baggage make-up conveyors and devices and other terminal equipment and approximately sixty-six percent of all other costs attributable to the terminal. It is anticipated that revenues of the terminal other than rentals, fees and charges of signatory airlines, together with the net revenues of the excluded cost centers, will be sufficient to pay the operation and maintenance expenses and bond service charges for the Series 2003A-1 bond, Series 2003A-2 bond, and the 2008 revenue note attributable to the remaining rentable space in the terminal and to all excluded cost centers.

The Authority is obligated under the airline agreements to make transfers for each fiscal year of a portion of any excess of net operating revenues plus the required transfer for the prior fiscal year over payments necessary to establish and maintain the operation and maintenance reserve requirement, capital charges, capital charge coverage attributable to terminal equipment and any required deposits to the reserve fund for such fiscal year, which transfers will reduce the rentals, fees and charges otherwise payable by the signatory airlines for such fiscal year.

From 2007 through September 2012, the sharing will be 40% to the signatory airlines and 60% to the Authority, based on the signatory airline agreement.

Notes to Financial Statements (continued)

#### 14. Airport Tenant Agreements

The Authority has entered into concession agreements with tenants for the use of certain airport facilities including, but not limited to, ready/return rental car parking areas, buildings, terminals, customer service areas, advertising, food and beverage, retail, on-airport rental cars and vending machines. Normally, the terms of the agreement include a fixed minimum annual guarantee (MAG) payment to the airport as well as additional contingent payments based on the tenants' annual sales volume of business. Revenues exceeded the MAG amounts due in 2009 of \$9,768,000 by \$3,280,000. Revenues exceeded the MAG amounts due in 2008 of \$9,483,000 by \$3,199,000. Some of the agreements provide for a periodic review and re-determination of the payment amounts.

Minimum future rental income for each of the next five years and thereafter, excluding contingent amounts on non-cancelable operating leases at September 30, 2009, is as follows (amounts in thousands):

Year	Total
	(dollar amounts in thousands)
2010	\$ 23,071
2011	22,648
2012	23,751
2013	12,686
2014	6,916
2015-2019	25,970
2020-2024	12,424
2025-2029	7,028
2030-thereafter	3,716_
	\$ 138,210

#### 15. Capital Contributions

The Authority receives, on a reimbursement basis, grants from the State of Florida and the U.S. Government for certain capital construction projects through the AIP. As a recipient of state and federal financial assistance, the Authority is responsible for maintaining an internal control structure that ensures compliance with all laws and regulations related to this program. This program is subject to federal and state audit. Total federal and state grant work performed was \$16,131,000 and \$20,442,000, respectively, for the years ended September 30, 2009 and 2008. The Authority estimates that no material disallowances will result from such audits.

#### Notes to Financial Statements (continued)

#### 15. Capital Contributions (continued)

The Authority received federal and state grants for capital programs for the years ended September 30, 2009 and 2008 as summarized in the table below.

	 2009		2008				
Capital programs:	(dollar amounts in thousands)						
State grants for construction	\$ 3,599	\$	6,476				
Federal grants for construction	11,956		13,855				
TSA grants for construction	445		51				
Other contributions for construction	 132		60				
	\$ 16,132	\$	20,442				

The Authority receives federal and state grants in support of its capital construction program. The federal program provides funding for airport development, airport planning and other eligible programs from the airports and airways trust funds in the form of entitlement and discretionary grants for eligible projects. The State also provides discretionary funds for capital programs. On September 30, 2009 and 2008 the Authority had a long term grant receivable due from the State in the amount of \$3,062,000 and \$4,121,000 respectively. Funds approval and encumbrance processing is contingent upon annual legislative appropriation.

Grants for capital asset acquisition, facility development, rehabilitation of facilities and long-term planning are reported in the statements of revenues, expenses and changes in net assets as capital contributions.

#### 16. Operating Grants

The Authority received federal and state grants for operating programs for the years ended September 30, 2009 and 2008 as summarized in the tables below.

		Year ended S	Septembe	er 30,			
		2009	2	008			
Operating programs:	(dollar amounts in thousands)						
FAA K-9 program	\$	192	\$	211			
Other		-		22			
State government		2		14			
State law enforcement forfeiture		51		1			
Federal law enforcement forfeiture		31		8			
	\$	276	\$	256			

Notes to Financial Statements (continued)

#### 16. Operating Grants (continued)

The FAA and state grant funds are awarded based on the additional security and training related expenses incurred as a result of September 11, 2001. The FAA K-9 program funds are awarded based on expenses of training, caring for and working with the explosive device detection dogs. The state and federal law enforcement forfeiture programs fund certain expenses associated with law enforcement.

Grants for operating programs for the year ended September 30, 2009 and 2008 are reported in the statement of revenues, expenses and changes in net assets as non-operating revenue. All of the amounts above were used to offset operating expenses in the statements of revenues, expenses and changes in net assets for the years ended September 30, 2009 and 2008.

#### 17. Payments to Other Governments

During fiscal years 2009 and 2008, the Authority paid approximately \$4.04 million and \$4.62 million to the City for expenses relating to legal, insurance, fire fighting and miscellaneous services.

#### 18. Commitments and Contingencies

#### **Terminal and Capital Improvement Program**

As of September 30, 2009 and 2008, the Authority has outstanding contractual commitments for completion of certain capital improvement projects, totaling \$25,629,000 and \$38,823,000 of which an estimated \$18,071,000 and \$15,099,000 is eligible for partial reimbursement, respectively, from both the FAA and the State of Florida. The remaining amount is expected to be funded from existing PFCs, debt instruments and/or future debt issuance, and Authority funds.

#### **Concentration of Credit Risk**

The Authority leases facilities to the airlines under certain leases and/or use agreements and to other businesses under agreements to operate concessions within the airport system. Amounts due from airlines represent approximately 69.66% and 66.58% of accounts receivable for 2009 and 2008, respectively. Airline operating revenues represent approximately 28.47% and 23.93% for 2009 and 2008, respectively.

Notes to Financial Statements (continued)

#### 18. Commitments and Contingencies (continued)

#### **Compliance Audits**

The Authority participates in a number of programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government or agency. If expenditures are disallowed due to noncompliance with grant program regulations, the Authority may be required to reimburse the grantor government or agency. An independent audit of these programs has been performed for the year ended September 30, 2008 in compliance with the Single Audit Act of 1984 and OMB Circular A-133 and is currently being conducted for the year ended September 30, 2009. The amount, if any, of expenditures which may be disallowed by the granting government or agency is expected to be immaterial.

#### Litigation

The Authority is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the Authority's attorney the resolution of these matters will not have a material adverse effect on the financial position of the Authority.

#### 19. Risk Management

The Authority is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees, and natural disasters. The Authority participates in the City's experience rated self-insurance plan which provides for auto liability, comprehensive general liability, and workers' compensation coverage. The Authority's expense is the premium charged by the City's self-insurance plan. The Authority has excess coverage for individual workers' compensation claims above \$1,200,000. Liability for claims incurred is the responsibility of, and is recorded in, the City's self-insurance plan. The premiums are calculated on a retrospective or prospective basis depending on the claims experience of the Authority and other participants in the City's self-insurance programs. The Authority's workers' compensation expense is the premium charged by the City's self-insurance plan. Premium expense in 2009 amounted to \$207,000. In 2008 the premium was \$334,000. The Authority was also a participant in the City's property insurance program during fiscal year 2008 and for the first five months of fiscal year 2009. In March of 2009 the Authority found it more economical to pursue property insurance independently. This resulted in an annual savings of approximately \$396,000. The Authority's property insurance premium expenses amounted to \$871,000 and \$1,028,000 for the years ended September 30, 2009 and 2008, respectively. The Authority is also a participant in the City's general liability insurance program. General liability insurance premium expense amounted to \$81,000 and \$50,000 for the years ended September 30, 2009 and 2008, respectively.

Notes to Financial Statements (continued)

#### 19. Risk Management (continued)

As a part of the Authority's risk management program, certain commercial insurance policies are purchased to cover designated exposures and potential loss programs. During the last three years the amounts of settlements did not exceed the insurance coverage. In addition, all tenants and businesses accessing the airport system are required to have commercial insurance coverage naming the Authority as additional insured.

### Jacksonville Aviation Authority Required Supplementary Information September 30, 2009

			Act	uarial			Annual	UAAL as a		
Valuation			Va	lue of		Percent	(	Covered	Percent of	
Date		AAL	A	ssets	UAAL	Funded	]	Payroll	Payroll	
(dollar amounts in thousands)										
9/30/2008	\$	2,628	\$	-	\$ 2,628	0.00%	\$	12,445	21.11%	
9/30/2009	\$	2,925	\$	-	\$ 2,925	0.00%	\$	13,043	22.47%	

As of September 30, 2009 and September 30, 2008 the plan was not funded. The actuarial accrued liability (AAL) for benefits was \$2.93 and \$2.63 million, respectively. The actuarial value of assets for both 2009 and 2008 was zero, resulting in an unfunded actuarial accrued liability (UAAL) of \$2.93 and \$2.63 million in 2009 and 2008. For fiscal years 2009 and 2008 the covered payroll (annual payroll of active employees covered by the plan) was \$13.04 and \$12.45 million, respectively. The ratio of the UAAL to the covered payroll was 22.47% for 2009 and 21.11% for 2008.

Report of Independent Certified Public Accountants on Internal Control Over Financial
Reporting and on Compliance
and Other Matters Based on an Audit of the Financial Statements
Performed in Accordance with Government Auditing Standards

The Board of Directors of Jacksonville Aviation Authority

We have audited the financial statements of the Jacksonville Aviation Authority (the Authority), a component unit of the City of Jacksonville, Florida, as of and for the year ended September 30, 2009 and 2008, and have issued our report thereon dated December 18, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

#### Internal control over financial reporting

In planning and performing our audit, we considered the Authority's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

#### **Compliance and other matters**

As part of obtaining reasonable assurance about whether the Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### Statistical

Annual Financial Report Fiscal Year 2009

Comprehensive Annual Financial Report for the Fiscal Year Ended September 30, 2009 of the Jacksonville Aviation Authority Jacksonville, Florida

(A Component Unit of the City of Jacksonville, Florida)

#### The objectives of the Statistical Section Information

The objectives of statistical section information are to provide financial statement users with additional historical perspective, context, and detail to assist in using the information in the financial statements, notes to financial statements, and required supplementary information to understand and assess the Authority's economic condition.

Statistical information is presented in the following five categories:

#### **Financial Trend Information**

Assists users in understanding and assessing how the Authority's financial position has changed over time.

#### **Revenue Capacity Information**

Assists users in understanding and assessing the factors affecting the Authority's ability to generate its own source revenue.

#### **Debt Capacity Information**

Assists users in understanding and assessing the Authority's debt burden and its ability to issue additional debt.

#### **Demographic and Economic Information**

Assist users in understanding and assessing the Authority's socioeconomic environment within which it operates and to provide information that facilitates comparisons of financial statement information over time among other airports.

#### **Operating Information**

Provides contextual information about the Authority's operations and resources to assist readers in using financial statement information to understand and assess the Authority's economic condition.
