Exhibit "A" – Bid Tabulation and Engineered Components Inc. bid submission

BACKGROUND:

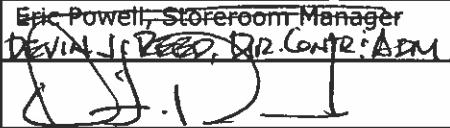

On November 27, 2019, JAA issued ITB No. 20-11-17111 for Hold Baggage System (HBS) Belts, Rollers and Pulleys, to solicit necessary parts for an efficient operating system. Bids were opened on January 10, 2020. Two bids were received; however, only one bid was deemed conforming and evaluated for award. Since re-bidding will not likely result in additional competition, it is recommended that an award be made to Engineered Components, Inc.

Historic spend data shows an average annual spend of approximately \$85,000.00. With the addition of Concourse B, as well as increasing maintenance due to wear and tear, Procurement estimates a new annual spend of approximately \$90,000.00.

RECOMMENDATION:

Procurement recommends that JAA make an award to Engineered Components Inc., the only responsive bidder in response to ITB No. 20-11-17111, for Hold Baggage System Belts, Rollers and Pulleys, in a total not-to-exceed amount of \$450,000.00 over an initial three-year term, with renewal options of up to two years.

Jacksonville Airport Authority
Attn: Meghan Miles
14201 Pecan Park Rd
Jacksonville FL 32218

Dear Meghan

Thank you for giving ECI the opportunity to continue supplying your airport with the conveyor components mentioned in this bid.

I want you to know that ECI is an approved vendor for the top 3 airlines, American, Delta and United Airlines, and service over 30 airports around the country.

ECI is fully aware of all special Airport Specifications required for all Belting used in North America, and will only supply products that will meet and or exceed the Fire Retardant ratings.

ECI has over 100 years experience working in airports. This experience is helpful when problems arrive in a bag system. We do not charge to address any trouble shooting issues, and also do not charge when Technicians need belt maintenance training.

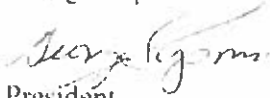

I also want to mention that ECI offers a 1% discount on ACH payments made in 30 Days.

Please consider the long term relationship ECI has with the JAA. We know your system very well and have a long time standing with Purchasing, Parts and Maintenance.

Let me know if there is anything else you need for this bid.

Best regards,

George Supino
